Tell me about Yourself

I started off my Career as a Junior Q.A in the year of 2018 in Aarong, Bangladesh . Basically it contains an E-commerce domain.Since then ,I have worked on several operating systems such as windows 2000, windows XP AND Mac.Being a Q.A,I have performed multifarious testing including Functional,Positive,Negative,Regression,Smoke ,Sanity ,Black box,UAT etc.

As a part of the Testing process, I was primarily responsible to create test Cases as per client requirements ,Test plan,Test scenarios and executing the test cases.I have written defects as they are found in using project Management tools such as ALM(application Life cycle Management) and JIRA.Once the defects were fixed, retested them and if they passed closed them.If the defects were not fixed I would make the effort to reopen them again.I would always asses, reassess and test them throughly before passing it on .With the help of SDLC and STLC, managed project quality assurance in all stages.I worked with different Methodologies like Agile and Agile scrum .I have few knowledge of databases like MYSQL/SQL,ORACLE ,wrote queries to retrieve data from database .I have taken care of web based applications as well as client server applications and did cross browser testing in different web browsers such as Firefox, Chrome ,safari etc.I also used Firebug extension to inspect/ locate the web elements particularly .In term of Automation ,I have also exposure to Selenium web driver with Java,Eclipse to develop and execute automated test scripts.Also having experience with TestNG Which helps to generate Reports, Grouping and assign Priority. For continuous integration process, used a open source tool Jenkins .Side by Side I am also trying to learn python.But generally i inclined towards Java. Also participated in daily status meeting,Scrum Stand-up,Grooming meetings, sprint planning and weekly status meeting. I am familiar with version control tool Github .Now a days, I am doing focusing to learn more backend testing and API automaton including postman,NodeJS,Newman tools .I have team player attitude which helps me to communicate with other team members and Management.Collaborated with the Product team and lead to resolve technical issues proactively to meet client

expectation.As a Q.A, my aim is not to only produce bug free product but to produce bug free quality product .

Recently I am doing internship with a Consulting Firm named TalentTek Consulting Inc.
